Valid Saudi Iqama (Transferable)

PROFESSIONAL SUMMARY

Computer Systems Engineering graduate (2026) focused on .NET backend and full-stack development. Hands-on project experience building REST APIs, authentication and authorization, real-time features, payment integrations, and cloud-deployed applications using C#, ASP.NET Core, EF Core, SQL Server, React, Python, and FastAPI. Built Brainova, an AI-enabled MRI platform integrating a .NET backend with a Python/TensorFlow inference service, with additional enterprise IT exposure through Bank of Jordan.

SELECTED PROJECTS

Brainova | AI Brain-Tumor MRI Analysis Platform
Feb 2026 - May 2026 | ASP.NET Core | EF Core | Identity | SignalR | Python | FastAPI | TensorFlow/Keras | OpenCV | Google Cloud Run | Live | Backend | AI Repo | API Docs
Graduation Project, PTUK | Team of 3 | My role: .NET backend + Python/TensorFlow AI inference service
- Built a 3-tier (PL/BLL/DAL) ASP.NET Core REST API with EF Core and integrated a FastAPI inference service on Google Cloud Run serving a TensorFlow/Keras EfficientNet CNN from Google Cloud Storage for four-class MRI analysis.
- Engineered OpenCV brain-region cropping and MRI validation, test-time augmentation, and Grad-CAM heatmaps to localize suspect regions.
- Implemented role-based access with ASP.NET Identity, SignalR real-time notifications, exportable PDF reports, and a Git-based team workflow.

Silverhand | Streaming Service Backend
Nov 2025 - Dec 2025 | ASP.NET Core | EF Core | Stripe | 3-Tier Architecture | MonsterASP | GitHub
- Developed and deployed a layered PL/BLL/DAL backend with EF Core data access and Stripe payment integration.

AY Shop | E-Commerce Backend
Sep 2025 | ASP.NET Core | EF Core | Stripe | 3-Tier Architecture | GitHub
- Built an e-commerce backend for product catalog, order management, and Stripe checkout using a clean layered architecture.

Ecoms | E-Commerce Web Application
Oct 2024 | React.js | Vite | JavaScript | Render | GitHub
- Developed and deployed a component-based React storefront with product browsing and shopping-cart functionality.

Burgineer | Burger Restaurant Website
Aug 2024 | HTML5 | CSS3 | JavaScript | Bootstrap | GitHub Pages | Live GitHub
- Built a five-page responsive restaurant site (home, menu, about, contact, reservation) with a hero carousel, reservation and contact forms, and vanilla JavaScript interactivity; deployed on GitHub Pages.

TECHNICAL SKILLS

Programming: C#, Python, Java, C++, JavaScript, SQL
Backend: ASP.NET Core Web API/MVC, Entity Framework Core, FastAPI, REST APIs, ASP.NET Identity, SignalR
Frontend / AI: React.js, Vite, Tailwind CSS, Bootstrap, HTML, CSS | TensorFlow/Keras, OpenCV, Grad-CAM
Cloud / Tools: SQL Server, Git, GitHub, Postman, Google Cloud Run, Google Cloud Storage, Azure, Render, MonsterASP
Languages: Arabic (native), English (professional working proficiency)

EXPERIENCE

IT Department Intern | Bank of Jordan | Jul 2026 – Sept 2026 | Ramallah, Palestine
- Completed the **Mehnati Internship Program** with rotations across banking systems, payment systems, networking, and IT support.
- Gained exposure to enterprise IT operations in a regulated banking environment.
- Collaborated on documenting and presenting an AI-powered banking assistant proposal, outlining requirements, business benefits, a project roadmap, and potential risks.

EDUCATION

B.Sc. in Computer Systems Engineering | **Palestine Technical University – Kadoorie** (PTUK), Tulkarm, Palestine | Sep 2022 - Aug 2026

CERTIFICATIONS

Back-End Development with ASP.NET - Knowledge Academy, 100 Hours, 2025
Front End Development Program - 100 Hours, 2024
Programming for Data Science with Python - Udacity Nanodegree, 2024
